# SEDIMENTOLOGY

The Journal of the International Association of Sedimentologists *edited by*
P. Haughton, S. Bennett, I. Montañez, C. Spötl

**Volume 50** 2003

**Blackwell**
Publishing

# Contents

NUMBER 1

1 *F. Maurer and W. Schlager.* Lateral variations in sediment composition and bedding in Middle Triassic interplatform basins (Buchenstein Formation, southern Alps, Italy)

23 *M. Pedley, J. A. González Martín, S. O. Delgado and M. Á. G. Del Cura.* Sedimentology of Quaternary perched springline and paludal tufas: criteria for recognition, with examples from Guadalajara Province, Spain

45 *D. R. Lowe, M. Guy and A. Palfrey.* Facies of slurry-flow deposits, Britannia Formation (Lower Cretaceous), North Sea: implications for flow evolution and deposit geometry

81 *D. J. P. Swift, B. S. Parsons, A. Foyle and G. F. Oertel.* Between beds and sequences: stratigraphic organization at intermediate scales in the Quaternary of the Virginia coast, USA

113 *T. Lien, R. G. Walker and O. J. Martinsen.* Turbidites in the Upper Carboniferous Ross Formation, western Ireland: reconstruction of a channel and spillover system

149 *C. L. Amos, I. G. Droppo, E. A. Gomez and T. P. Murphy.* The stability of a remediated bed in Hamilton Harbour, Lake Ontario, Canada

169 *R. L. Gawthorpe, S. Hardy and B. Ritchie.* Numerical modelling of depositional sequences in half-graben rift basins

187 *J. P. Bhattacharya and L. Giosan.* Wave-influenced deltas: geomorphological implications for facies reconstruction

NUMBER 2

211 *H. A. Aziz, E. Sanz-Rubio, J. P. Calvo, F. J. Hilgen and W. Krijgsman.* Palaeoenvironmental reconstruction of a middle Miocene alluvial fan to cyclic shallow lacustrine depositional system in the Calatayud Basin (NE Spain)

237 *Y. Van Lith, R. Warthmann, C. Vasconcelos and J. A. McKenzie.* Microbial fossilization in carbonate sediments: a result of the bacterial surface involvement in dolomite precipitation

247 *Y. Niño, F. Lopez and M. Garcia.* Threshold for particle entrainment into suspension

265 *J. Yan and E. H. Carlson.* Nodular celestite in the Chihsia Formation (Middle Permian) of south China

279 *M. W. Schmeeckle and J. M. Nelson.* Direct numerical simulation of bedload transport using a local, dynamic boundary condition

303 *S. L. Namikas.* Field measurement and numerical modelling of aeolian mass flux distributions on a sandy beach

327 *J. Mäkinen.* Time-transgressive deposits of repeated depositional sequences within interlobate glaciofluvial (esker) sediments in Köyliö, SW Finland

361 *F. Ortí, L. Rosell and P. Anadón.* Deep to shallow lacustrine evaporites in the Libros Gypsum (southern Teruel Basin, Miocene, NE Spain): an occurrence of pelletal gypsum rhythmites

NUMBER 3

387 *J. Bauer, J. Kuss and T. Steuber.* Sequence architecture and carbonate platform configuration (Late Cenomanian–Santonian), Sinai, Egypt

415 *S. J. Davies and M. R. Gibling.* Architecture of coastal and alluvial deposits in an extensional basin: the Carboniferous Joggins Formation of eastern Canada

441 *G. R. Brooks.* Alluvial deposits of a mud-dominated stream: the Red River, Manitoba, Canada

459 *P. D. W. Haughton, S. P. Barker and W. D. McCaffrey.* 'Linked' debrites in sand-rich turbidite systems – origin and significance

483 *E. L. Habgood, N. H. Kenyon, D. G. Masson, A. Akhmetzhanov, P. P. E. Weaver, J. Gardner and T. Mulder.* Deep-water sediment wave fields, bottom current sand channels and gravity flow channel-lobe systems: Gulf of Cadiz, NE Atlantic

511 *B. Diekmann, M. Fälker and G. Kuhn.* Environmental history of the south-eastern South Atlantic since the Middle Miocene: evidence from the sedimentological records of ODP Sites 1088 and 1092

531 *J. M. Whitehead, D. M. Harwood and A. McMinn.* Ice-distal Upper Miocene marine strata from inland Antarctica

553 *J. C. Braga, C. Betzler, J. M. Martín and J. Aguirre.* Spit-platform temperate carbonates: the origin of landward-downlapping beds along a basin margin (Lower Pliocene, Carboneras Basin, SE Spain)

565 *K. D. Adams.* Estimating palaeowind strength from beach deposits

579 *D. Pirrie, M. R. Power, G. Rollinson, G. S. Camm, S. H. Hughes, A. R. Butcher and P. Hughes.* The spatial distribution and source of arsenic, copper, tin and zinc within the surface sediments of the Fal Estuary, Cornwall, UK

597 *M. R. Lee and I. Parsons.* Microtextures of authigenic Or-rich feldspar in the Upper Jurassic Humber Group, UK North Sea

609 Citation of Roger G. Walker for the Sorby Medal

612 Professor Walker's acceptance speech

615 New Honorary Member of the International Association of Sedimentologists

617 Report of the General Secretary

619 Report of the Editors

623 Acknowledgements

NUMBER 4

625 *D. R. Mastbergen and J. H. Van Den Berg.* Breaching in fine sands and the generation of sustained turbidity currents in submarine canyons

639 *S. B. Kim, S. K. Chough and S. S. Chun.* Tectonic controls on spatio-temporal development of depositional systems and generation of fining-upward basin

fills in a strike-slip setting: Kyokpori Formation (Cretaceous), south-west Korea
667 *G. J. Hampson and J. E. A. Storms.* Geomorphological and sequence stratigraphic variability in wave-dominated, shoreface-shelf parasequences
703 *H. Von Eynatten.* Petrography and chemistry of sandstones from the Swiss Molasse Basin: an archive of the Oligocene to Miocene evolution of the Central Alps
725 *E. F. McBride.* Pseudofaults resulting from compartmentalized Liesegang bands: update
731 *Y. Kim and Y. I. Lee.* Radiaxial fibrous calcites as low-magnesian calcite cement precipitated in a marine-meteoric mixing zone
743 *S. J. Mazzullo, C. S. Teal, W. D. Bischoff, K. Dimmick-Wells and B. W. Wilhite.* Sedimentary architecture and genesis of Holocene shallow-water mud-mounds, northern Belize
771 *W. M. Cornelis and D. Gabriels.* The effect of surface moisture on the entrainment of dune sand by wind: an evaluation of selected models
791 *J. C. Tipper, V. J. Sach and E. P. J. Heizmann.* Loading fractures and Liesegang laminae: new sedimentary structures found in the north-western North Alpine Foreland Basin (Oligocene–Miocene, south-west Germany)
815 Erratum

**NUMBER 5**

817 *OnlineEarly* Announcement
819 *V. P. Rao, P. M. Kessarkar, W. E. Krumbein, K. P. Krajewski and R. J. Schneider.* Microbial dolomite crusts from the carbonate platform off western India
831 *M. Grecula, S. S. Flint, H. De. V. Wickens and S. D. Johnson.* Upward-thickening patterns and lateral continuity of Permian sand-rich turbidite channel fills, Laingsburg Karoo, South Africa
855 *J. M. Ketzer, M. Holz, S. Morad and I. S. Al-Aasm.* Sequence stratigraphic distribution of diagenetic alterations in coal-bearing, paralic sandstones: evidence from the Rio Bonito Formation (early Permian), southern Brazil
879 *S. Schröder, B. C. Schreiber, J. E. Amthor and A. Matter.* A depositional model for the terminal Neoproterozoic–Early Cambrian Ara Group evaporites in south Oman
899 *D. W. Kirkland.* An explanation for the varves of the Castile evaporites (Upper Permian), Texas and New Mexico, USA
921 *G. Jiang, N. Christie-Blick, A. J. Kaufman, D. M. Banerjee and V. Rai.* Carbonate platform growth and cyclicity at a terminal Proterozoic passive margin, Infra Krol Formation and Krol Group, Lesser Himalaya, India
953 *A. Immenhauser, G. D. Porta, J. A. M. Kenter and J. R. Bahamonde.* An alternative model for positive shifts in shallow-marine carbonate $\delta^{13}C$ and $\delta^{18}O$
961 *P. A. Fernández-Mendiola and J. García-Mondéjar.* Carbonate platform growth influenced by contemporaneous basaltic intrusion (Albian of Larrano, Spain)
979 *B. Krapež, M. E. Barley and A. L. Pickard.* Hydrothermal and resedimented origins of the precursor sediments to banded iron formation: sedimentological evidence from the Early Palaeoproterozoic Brockman Supersequence of Western Australia

**NUMBER 6**

1013 *A. W. E. Wilbers and W. B. M. Ten Brinke.* The response of subaqueous dunes to floods in sand and gravel bed reaches of the Dutch Rhine
1035 *P. Pellenard, J.-F. Deconinck, W. D. Huff, J. Thierry, D. Marchand, D. Fortwengler and A. Trouiller.* Characterization and correlation of Upper Jurassic (Oxfordian) bentonite deposits in the Paris Basin and the Subalpine Basin, France
1061 *G. B. Dunbar and G. R. Dickens.* Late Quaternary shedding of shallow-marine carbonate along a tropical mixed siliciclastic–carbonate shelf: Great Barrier Reef, Australia
1079 *U. Zimmermann and H. Bahlburg.* Provenance analysis and tectonic setting of the Ordovician clastic deposits in the southern Puna Basin, NW Argentina
1105 *A. C. Bastos, M. Collins and N. H. Kenyon.* Morphology and internal structure of sand shoals and sandbanks off the Dorset coast, English Channel
1123 *R. G. D. Davidson-Arnott and A. G. Van Heyningen.* Migration and sedimentology of longshore sandwaves, Long Point, Lake Erie, Canada
1139 *F. Mees and G. Stoops.* Circumgranular bassanite in a gypsum crust from eastern Algeria – a potential palaeosurface indicator
1147 *A. G. Plint and J. A. Wadsworth.* Sedimentology and palaeogeomorphology of four large valley systems incising delta plains, western Canada Foreland Basin: implications for mid-Cretaceous sea-level changes
1187 *P. J. McCarthy and A. G. Plint.* Spatial variability of palaeosols across Cretaceous interfluves in the Dunvegan Formation, NE British Columbia, Canada: palaeohydrological, palaeogeomorphological and stratigraphic implications
1221 *X. Du Bernard and E. Carrio-Schaffhauser.* Kaolinitic meniscus bridges as an indicator of early diagenesis in Nubian sandstones, Sinai, Egypt
1231 *G. Friès and O. Parize.* Anatomy of ancient passive margin slope systems: Aptian gravity-driven deposition on the Vocontian palaeomargin, western Alps, south-east France
1271 *P. Blanchon and D. Blakeway.* Are catch-up reefs an artefact of coring?
1283 *N. P. Stephens and D. Y. Sumner.* Famennian microbial reef facies, Napier and Oscar Ranges, Canning Basin, western Australia
1303 Author index
